

Lakshmi Vishal Hayagrivan

UX/UI Designer

Åstorp, Skåne, Sweden | +46 76 314 52 56 | lakshmivishal9496@gmail.com | linkedin.com/in/lakshmi-vh

Professional Summary

UX/UI Designer with hands-on experience across the full design lifecycle: user research, wireframing, prototyping, and usability testing, combined with a strong technical background in software development and QA. Skilled in Figma and Adobe XD, with design systems experience in Material Design 3 and Fluent UI, and a focus on accessible, WCAG 2.1-compliant interfaces. Experienced working in Agile/Scrum teams using Jira and Confluence, collaborating with cross-functional engineering and QA teams to translate research insights into validated, iterative design solutions and ensure consistent product quality.

Core Skills

- **UX/UI Design:** User Research, Requirements Gathering, Wireframing, Prototyping, Usability Testing, Iterative Design
- **Accessibility:** WCAG 2.1, EU Accessibility Standards
- **Design Systems:** Material Design 3, Fluent UI
- **Design & Dev Tools:** Figma, Adobe XD, Chart.js, Jira, Confluence, Git, Bitbucket
- **Methodologies:** Agile/Scrum, Product Quality Assurance
- **Programming:** Python, C#, JavaScript, Kotlin
- **AI & Data:** Agentic AI, Data Analysis, Neural Networks
- **Testing:** Exploratory Testing, System Testing, Test-Driven Development (TDD), Test Automation (Selenium)
- **Languages:** Swedish (Intermediate), English (Fluent)

UX/UI Design Projects, Höskolan Kristianstad (2022–2025)

- Conducted user interviews and requirements gathering to define design problems and user needs
- Created wireframes and interactive prototypes in Figma and Adobe XD
- Conducted usability and accessibility testing following WCAG 2.1 and EU accessibility standards
- Applied Material Design 3 and Fluent UI design systems for consistent, scalable interfaces
- Iterated designs based on usability testing results to improve overall user experience
- Applied Test-Driven Development (TDD) in a Python coursework project (Pig Dice game), writing unit tests and using coverage tools to guide implementation. Link: github.com/Abshir112/TDD_Assignment2

Professional Experience

Access Control QA Intern, Axis Communications AB, Lund

Nov 2025 – Jan 2026

- Conducted system and exploratory testing of ACS Pro and Secure Entry, surfacing usability issues affecting end-user workflows
- Worked directly with Axis controllers and card readers to evaluate real-world interaction flows
- Tested REX/DPS, OSDP Secure Channel, and QR-code integration via Barcode Reader
- Partnered with developers and QA teams, feeding usability findings back into product improvements
- Worked within an Agile/Scrum team, using Jira and Confluence to track requirements and defects, ensuring consistent product quality across releases

Automation Tester Intern, Legrand Sverige AB, Löddeköpinge

Aug 2025 – Oct 2025

- Built a C# (Selenium) automation framework to support consistent testing workflows
- Designed a real-time log visualization dashboard using Chart.js and WebView, focused on clear data readability
- Developed a tool to analyze firmware errors on ARM Cortex processors

Thesis Researcher, UX-Focused AI Tooling, Axis Communications AB, Lund

Jan 2025 – Jun 2025

- Designed UI prototypes in Figma and built a dashboard using the Fluent UI design system for an AI-based log analysis tool for Axis Camera Station Secure Entry
- Applied multi-agent AI orchestration concepts to help surface system anomalies for users
- Iterated on designs based on feedback to improve clarity and usability of the analysis dashboard

Mobile App Developer, Assimilatus AB, Staffanstorp

Oct 2024 – Nov 2024

- Developed an Android app (Kotlin + Firebase) for IoT sensor data, with attention to clear data presentation
- Collaborated with the embedded team to ensure secure communication between hardware and cloud

Full Stack Developer, Koenigsegg Automotive AB, Ängelholm

Oct 2023 – Mar 2024

- Built a Django backend and React frontend applying Material Design 3 principles for a consistent, accessible UI
- Integrated REST API endpoints to support data analysis and visualization

Education

Bachelor's Degree in Software Development, Höskolan Kristianstad

Aug 2022 – Jun 2025

Master of Science in Computer Science, University of Madras, India

May 2013 – Jun 2018
